

No.	Project	Client	Title	Description	Period / Duration
169	2015/14	Water and Sanitation for the Urban Poor (WSUP)	Endline survey of households and infrastructure for DFID's WSUP Programme 2012-2015	End-of-programme evaluation assessing the effectiveness, sustainability, and overall impact of programme activities in each of WSUP's four Strategic Objectives, Maputo city	2 months
168	2015/13	FBW	Brewery Location Study	Alternative sites for a food production plant in (or near) Maputo has been considered, focussing on infrastructure, hydrogeology, waste water options etc, resulting in a Location Options Appraisal Report	2 weeks
167	2015/12	WE Consult Uganda	Technical assistance geophysics	Technical Assistance in Geophysical Surveys, carried out in Uganda	1 month
166	2015/11	SNV	Feasibility Study for a sustainable business model for drinking water in Mozambique	Study for identification of relevant locations for implementation, financial feasibility in relation to affordability to pay for clean water and identification and mapping of various stakeholders, like micro-credit organizations and local entrepreneurs, Maputo and Gaza province	2 months
165	2015/10	Promundo	IMAGES Survey Maputo-Matola	A Household level survey designed to provide information on gender and reproductive health related matters; it involve interviewing a selected group of (unmarried & married) women and men aged 18-59	1 month
164	2015/09	Future Water	Future Water Flying Sensors	The ThirdEye project aims to support smallholder farmers in their irrigation practises by providing waterstress maps made by near infra red cameras on drones, Chokwe and Xai-Xai District	ongoing (until 10/2016)
163	2015/08	WaterAid	End evaluation – project "kubasisa muganga"	End Evaluation to provide a systematic and independent analysis of the relevance, effectiveness, efficiency and sustainability of the project "Kubasisa Muganga", city of Maputo	2 months
162	2015/07	WaterAid	Baseline Boane District	Baseline study to present an analysis describing the situation prior to the intervention of WaterAid, with which progress will be evaluated	2 months
161	2015/06	Wetterskip Fryslan	ARASul Dyke Management	Elaboration of a report with a proposal for the implementation of sustainable dyke management in the Limpopo River Basin, Chokwe and Xai-Xai District	4 months
160	2015/05	Wetterskip Fryslan	ARASul Workshop	A workshop in water allocation practices was organised to share experiences and to define common policies and to propose methodologies for managing future water use, at DNA in the city of Maputo	1 week
159	2015/04	Water and Sanitation for the Urban Poor (WSUP)	Endline Evaluation - WSUP Tchemelane	Endline Survey of the coverage of services for water supply and sanitation in different neighborhoods in the city of Maputo, through researching a random sample of households (AF) in the intervention areas.	2 months
158	2015/03	Gestao de Imoveis Limitada (GIL)	Hydrogeological Survey Tsangano	Hydrogeological survey on a plot in Tsangano District, Tete Province	2 months
157	2015/02	AIGHD	AIGHD Domestic Violence Study	Pilot Study for Research on Domestic Violence in 5 bairros in Matola City	1 week
156	2015/01	EMORY University (Atlanta, USA)	Baseline Study SaniPath	Assessment of Fecal Exposure Pathways in Low-Income Urban Settings (SaniPath) study, to characterize fecal contamination in urban, low-income settings and to understand routes of exposure for individuals living in this environment, Maputo City	2 months
155	2014/14	Wetterskip Fryslan	Wetterskip Fryslan Technical Assistance	Facilitation of meetings and seminars related to the development and sustainable management of dikes in the Limpopo Basin	8 months
154	2014/13	Future Water	Development of Water Allocation models for the Umbeluzi River Basin	ARA-Sul appealed to partners Future Water and Wetterskip Fryslan for the development and implementation of water allocation models for the Umbeluzi River basin for the management of the Pequenos Libombos dam	3 months
153	2014/12	UNICEF	Sustainability Check 2014 UNICEF Rural WASH Programme	Sustainability Check 2014 for the UNICEF Mozambique One Million Initiative, Sofala, Manica and Tete Provinces	2 months
152	2014/11	Munda Munda	PMU Munda Munda	Project Management unit for a project on flood control, drainage and irrigation of Munda Munda Rice Plantation	5 years / ongoing
151	2014/10	London School of Hygiene and Tropical Medicine (LSHTM)	LSHTM MapSan Baseline	Urban sanitation study with the aim of evaluating the shared infrastructure sanitation built in 11 peri-urban neighborhoods of Maputo by the NGO WSUP	ongoing (until 2017)
150	2014/09	World Vision	World Vision Midterm Assessment	World Visions Midterm Assessment of the Water, Sanitation and Hygiene program in Mozambique; including extensive household, community research and water committees research surveys in schools and in health facilities	6 months
149	2014/08	ENI / CH2MHILL	ENI Water and Soil Baseline	Onshore Environmental Baseline in Area 4 Development Projects and their Areas of Influence (groundwater and surface water quality and soil quality) – Palma District	12 months
148	2014/07	WaterAid	KAP Study WaterAid	Knowledge, Attitude and Practises (KAP) Study about the status of WASH practises in the cities of Quelimane and Cuamba	2 months
147	2014/06	YEP	Young Expert Programme	Participation in the Young Expert Programme, which is carried out jointly by the Netherlands Ministry of Foreign Affairs, the Netherlands Water Partnership (NWP)	2 years
146	2014/05	ARA Zambeze	Hydrogeological Survey Nhartanda Tete	Detailed hydrogeological study for Monitoring the Aquifer System in the Nhartanda Valley - Tete City	9 months
145	2014/04	ECO-bom	Testpump analysis	Interpretation of the data of a pumping test on ECO-bom's production borehole in Maluane and comments on the potential future capacity of the aquifer	1 week
144	2014/03	Oxford	Value for Money WASH	Value for money and sustainability check of the WASH program of Oxford, by doing community surveys, household surveys (1260 households in 9 provinces), inspection of water sources and qualitative research	7 months
143	2014/02	WSUP	Sanitation Market Research	Market Assessment for the emptying and transport of Faecal Sludge in Maputo	2 months
142	2014/01	AIGHD	Baseline and Impact Assessment Sexual Behaviour	Baseline and Impact Assessment for the Women's Empowerment and Family Planning Programme for the Amsterdam Institute for Global Health and Development	15 months
141	2013/16	Fundo Nacional de Energia (FUNAE)	FUNAE Training	A training for 5 technicians of FUNAE on the design, construction, evaluation and maintenance of boreholes using photovoltaic systems	2 weeks
140	2013/15	ACDI/VOCA, BHP Billiton	Baseline LEAD project	Baseline Survey for the Livelihoods Empowerment and Development (LEAD) project, Maputo Province	3 months
138	2013/13	UNICEF	Sustainability Check 2013 UNICEF One Million Initiative	Sustainability Check 2013 for the UNICEF Mozambique One Million Initiative, Sofala, Manica and Tete Provinces	2 months
136	2013/11	WaterAid	WaterAid Evaluation	Mid-Term Evaluation of the Project "Kubasisa Muganga" - Supply of Safe Water and Sanitation and Hygiene Promotion in the most vulnerable communities of the Municipal Districts of Ka Mubukwana and Ka Mavota in the city of Maputo	2 months
135	2013/10	WSUP	WSUP Baseline study of Tchemelane Project	Baseline on the Coverage of Services for Water Supply and Sanitation in selected Neighborhoods in Maputo, including data collection (household surveys) and database set-up	2 months
134	2013/09	FutureWater	Technical Assistance ARA-Centro WATPLAG	Overall support of the WATPLAG ("Water Planning Tools to Support Water Governance") project activities and support of the project partners in finding additional project opportunities	15 months
133	2013/08	ARA Zambeze	Technical Assistance ARA Zambeze	Short-term Technical Assistance (expert advice) for ARA Zambeze, Tete Province	10 weeks
131	2013/06	Matsuda consultants international co., ltd	Matsuda Infulene Hospital Siting	Geophysical survey for the preparatory survey on the project for the construction of infulene health science institute in maputo province	1 month
130	2013/05	WaterAid	Baseline WaterAid Nicoadala	Baseline study on the state of water supply, sanitation and hygiene in the District of Nicoadala, Zambezia Province	3 months
129	2013/04	ORIO	ECO Farm deliverable 1-5	ORIO Eco Farm project - Project Management Unit	2 years
128	2013/03	Millenium Challenge Account Mozambique (MCA)	Baseline & Impact Evaluation MCA	Baseline & Impact Evaluation for the Millennium Challenge Corporation supported Rural Water Investment in Namputa and Cabo Delgado Provinces	2x 3 months
127	2013/02	ICNet Industrial Survey	JICA study on human resource development for industrial development in Mozambique	Investigation of priority industries for the development of the country, priority subject areas of human resource development and potential institutions	2 months
126	2013/01	London School of Hygiene and Tropical Medicine (LSHTM)	FP sampling round 03	Finger press sampling processing during round 3 of WSUP Health Baseline in 6 bairros of Maputo	1 month
125	2012/13	London School of Hygiene and Tropical Medicine (LSHTM)	FP sampling round 02	Finger press sampling processing during round 2 of WSUP Health Baseline in 6 bairros of Maputo	1 month
124	2012/12	Hydroconseil	Inchope Sitting	Water Resource Assessment & Geophysical Survey	2 months

No.	Project	Client	Title	Description	Period / Duration
123	2012/11	Nederlands Water Partnerschap	TA ARA Zambeze	Short-term Technical Assistance (expert advice) for ARA Zambeze, Tete Province	2 months
122	2012/10	Hydroconseil	Inchope HydroGeo Study	Hydrological Assessment, Inchope	2 weeks
121	2012/09	Water and Sanitation for the Urban Poor (WSUP)	Health Baseline	Health Baseline of 6 bairros in Maputo during 4 seasonal phases	4x 3 weeks
120	2012/08	Water and Sanitation for the Urban Poor (WSUP)	Initial Environmental Examination	Initial Environmental Examination for the Tchemelane program	2 months
119	2012/07	Unicef	NAMWASH Baseline	Baseline study 2012 for the Unicef integrated Water, Sanitation and Hygiene Programme	5 months
118	2012/06	ARA Sul	Groundwater Modelling	Groundwater Modelling (ModFlow) of the aquifer north of Maputo	3 months
117	2012/05	Water and Sanitation for the Urban Poor (WSUP)	Baseline WSUP	Baseline study in 9 bairros of urban Maputo	2 months
116	2012/04	Worldvision	Baseline MozWash	Baseline Survey for the Mozambique Water, Sanitation and Hygiene (MozWASH) Programme	4 months
115	2012/03	GD Booyens and Rui Branco	Funhalouro Survey	Geophysical Survey for a borehole for a cattle farm in Funhalouro District, Inhambane Province	4 months
114	2012/02	Concern WorldWide Moçambique	Evaluation Machaze Water Project	Final evaluation of the Machaze District Water Project	2 weeks
113	2012/01	SNV TA	SNV Strategy	Strategy development for SNV Mozambique concerning the water sector	3 months
112	2011/12	Netherlands Embassy in Mozambique	Mission MSSF	Support mission food and nutrition security strategy	2 weeks
111	2011/11	BABAJI	Macomia Siting	Siting for 5 boreholes in Macomia District, Cabo Delgado	1 week
110	2011/10	DNA/PRONASAR	Baseline study National Programme for Rural Water and Sanitation	Baseline study for the National Programme for Rural Water and Sanitation in 128 districts in Mozambique	5 months
109	2011/09	Matsuda	Survey Matsuda	Geohydrological studies for 7 Secondary Schools and a Teachers Training Institute in Nampula Province	6 weeks
108	2011/08	Ecobom	Ecobom Mineral Water plant survey	Geohydrological study for ECOBOM in Maluana	1 week
107	2011/07	DPOPH-Tete/UNICEF	Angonia/Tsangano Supervision	Drilling supervision for 50 boreholes in Angonia and Tsangano Districts, Tete, for the UNICEF "One Million Initiative"	6 months
106	2011/06	DPOPH-Tete/UNICEF	Chifunde Supervision	Drilling supervision for 30 boreholes in Chifunde District, Tete, for the UNICEF "One Million Initiative"	6 months
105	2011/05	MOZAL	MOZAL Borehole log	Acquisition of borehole logs from the National Petroleum Institute for MOZAL	1 week
104	2011/04	Stanford University/Virginia Tech/MCC	Stanford Baseline MCA	Baseline Study for the MCA project in 6 districts in Nampula, Mozambique. Partners: Stanford University, Virginia Tech	3 months
103	2011/03	AquaQuest	Zambia Supervision & Testpumping	Assistance to Aquaquest including test-pumping and drilling supervision in Zambia	1 month
102	2011/02	EU	WATPLAN	Spatial earth observation monitoring for planning and water allocation in the international Inkomati Basin	36 months
101	2011/01	BABAJI	BABAJI Chiuri Siting	Siting of 5 boreholes in Chiure	1 week
100	2010/16	BABAJI	Nacala Siting	Siting for 4 boreholes in Nacala-Velha	1 week
99	2010/15	MOZAL	MOZAL Supervision	Drilling supervision for one borehole on the premises of MOZAL at Belulane Industrial Park, Matola	1 week
98	2010/13	BABAJI	Erati ActionAid Siting	Siting for 7 boreholes in Erati	2 weeks
97	2010/14	BABAJI	Montepuez Siting	Siting for 12 boreholes in Montepuez	2 weeks
96	2010/12	GD Montepuez/Care-Haupa	Montepuez Supervision	Supervision of 12 boreholes in Montepuez	3 months
95	2010/11	BABAJI Erati/Care-Haupa	Erati Siting	Siting for 18 boreholes in Erati District	3 weeks
94	2010/10	GD Erati/Care-Haupa	Erati Supervision	Supervision of drilling of 18 boreholes	3 months
93	2010/09	LWF	Technical Assistance LWF	Technical Assistance during a field visit of a consultant to LWF in Chicualcuala District, Mozambique	1 week
92	2010/08	UNICEF	MTIA UNICEF "One Million Initiative"	Mid-term impact evaluation of the One Million Initiative in Manica, Tete and Sofala	3 months
91	2010/07	LNV/OS	LNV/OS 2010	Assistance to the WIBIS and REMCO projects	12 months
90	2010/06	ADB	WASH Programme Evaluation	Community Outcomes and Perspectives of the Integrated Water Supply and Sanitation Project in Mozambique	2 months
89	2010/05	GEOQUEST	Geological Map of Mozambique	Provision of Geological Map of Mozambique	1 week
88	2010/04	CONNECT INTERNATIONAL	Tulip Filter testing	Testing of Tulip Water Filters in Collaboration with MISAU	1 month
87	2010/03	CRUZ VERMELHA	Baseline Survey Cruz Vermelha, Boane District	Baseline survey for rainwater harvesting project for schools in Boane District	2 weeks
86	2010/02	MOZAL	MOZAL Survey	Hydrogeological survey for the aluminium smelter MOZAL	2 months
85	2010/01	UNFPA	Geração Biz	Evaluation of Geração Biz	3 months
84	2009/13	CAPNET	Capacity Building in Integrated water resources management (IWRM)	Facilitation of a course on Integrated water resources management (IWRM) in Beira, Mozambique	1 week
83	2009/12	IMWI	Groundwater Assessment for food security and livelihoods in Mozambique	The specific objective of this study was to develop a clear and comprehensive report on the status of groundwater resources and use in Mozambique for the International Water Management Institute.	2 weeks
82	2009/11	Mundágua	Survey for one production borehole in Rapale	Hydrogeological survey to determine the potentiality of groundwater for large abstracts in Rapale, Nampula province.	1 week
81	2009/10	Kokusai Kogyo	Quotations	Technical assistance	1 month
80	2009/09	Ernando Cumbula	Survey for one production borehole in Boane	Hydrogeological survey to determine the potentiality of groundwater for large abstracts in Boane, Maputo province.	1 week
79	2009/08	Kokusai Kogyo	Quotations	Technical assistance	1 month
78	2009/07	VITENS	Hydrogeological survey	Groundwater assessment for extension of well field in Tete city	1 month
77	2009/06	Kokusai Kogyo	Base line study	School Investigation for Rainwater Harvesting on Maputo and Gaza Region	1 month
76	2009/05	WUR	Synergy	Competing claims on water in Incomati Basin	12 months
75	2009/04	Kokusai Kogyo	Base Line Study	School Investigation for Rainwater Harvesting on Gaza Province	1 month
74	2009/03	ASNANI	Supervision	Supervision of deep (up to 100 m) boreholes in greater Nampula Province (30 boreholes)	1 month
73	2009/02	FIPAG	Supervision	Supervision of deep (up to 100 m) boreholes in greater Maputo	2 months
72	2009/01	CONCERN	Feasibility Study in Machaze	Study and TA to enable the successful implementation of solar systems	4 months

No.	Project	Client	Title	Description	Period / Duration
71	2008/12	WATERAID	Baseline Survey in 2 districts	Data collection and mapping of all water points in two districts in Zambezia	3 months
70	2008/11	ASNANI project	Supervision	Supervision of drilling activities of 35 boreholes	3 months
69	2008/10	UNICEF BLS	Baseline Survey in Manica, Tete and Sofala	Extensive baseline for one million initiative. 1600 households over 3 provinces.	4 months
68	2008/09	OXFAM	Supervision of the drilling of boreholes in Marromeu	Supervision of 6 boreholes, including preparation of final report	3 week
67	2008/08	INGEROP	Hydrogeological survey	Survey for 25 boreholes in 20 communities of Guro (Manica) and 5 communities of Changara (Tete)	2 months
66	2008/07	SWISSTA	Survey for one production borehole in Dondo	Hydrogeological survey for determining potential and salinity of water in the area.	1 week
65	2008/06	DPOPH Sofala	Contract Management in Nhamatanda and Gorongosa	Technical survey, hydrogeologic surveys, Tender documents preparation and Supervision of the works for construction of 60 water points in the districts of Nhamatanda e Gorongosa (Lote III).	7 months
64	2008/05	SWISSTA	Survey for one production borehole in Machava	Hydrogeological survey to determine the potentiality of groundwater for large abstracts in Machava, Maputo province.	1 week
63	2008/04	DPOPH Tete	Contract Management in Tsangano and Chifunde Lote II	Technical survey, hydrogeologic surveys, Tender documents preparation and Supervision of the works for construction of 60 water points in the districts of Tsangano e Chifunde (Lote I).	7 months
62	2008/03	DPOPH Tete	Contract Management in Angónia Lote I	Technical survey, hydrogeologic surveys, Tender documents preparation and Supervision of the works for construction of 80 water points in the district of Angónia (Lote I).	6 months
61	2008/02	WATERAID	Technical Assistance to 4 University Students	Verification of collected data; Assist in analyzing the data; Assisting in geographical analyses, including linking geology with water point data; Assisting in structuring and set-up the reports	1 month
60	2008/01	FIPAG	Supervision of the drilling of 20-24 boreholes in Maputo and Matola	Supervision of contractors for 20-24 water point construction in Maputo and Matola.	4 months
59	2007/24	PAMQZ	Survey for one production borehole	Survey for one production borehole	4 months
58	2007/23	OXFAM	Supervision of the drilling of boreholes in Marromeu	Supervision of the drilling of boreholes in Marromeu	4 months
57	2007/22	WATERAID	Technical Assistance Namacurra and Namarroi	Technical assistance to both provincial and district level for the usage of tools of GIS and GPS for the monitoring and evaluation of the status of the water points in Namacurra and Namarroi districts	4 months
56	2007/21	WATERAID	Baseline Survey in Mocuba and Maganja da Costa	Baseline survey for water sources with participative methods and GIS analyses.	4 months
55	2007/20	AQUAFRICA	Survey for 3 boreholes in Montepuez, Cabo Delgado	Survey in communities for best drilling locations. Both geophysical profiles and soundings are conducted.	1 week
54	2007/19	Água de Goba	Supervision of one production borehole	Supervision over the construction of 1 production borehole in Goba	1 week
53	2007/18	Project ASNANI / DPOPH Nampula / African development Bank	Management Information System	Setting up an MIS system, for the water and sanitation sector in Nampula and Niassa province. Includes stakeholder analyses and discussion, design, programming, implementation and technical assistance of one year	18 months
52	2007/17	NEW HORIZONS	Plot Mapping in Ribaué, Nampula Province	Boundaries definition and existing infrastructure and particularities mapping in various themes	1 week
51	2007/16	Aquáfrica_Bal-Nam-Anc-Chi	Borehole site investigations in 14 villages	Survey in communities for best drilling locations. Both geophysical profiles and soundings are conducted.	2 weeks
50	2007/15	OXFAM	Borehole site investigations in 8 villages in district of Mopeia, in Zambezia Province.	Survey in communities for best drilling locations. Both geophysical profiles and soundings are conducted. Locations in Districts of Chiure, Ancuabe, Balama and Namuno of Cabo Delgado Province.	2 weeks
49	2007/14	Aquáfrica	Borehole site investigations in 9 villages in the district of Montepuez of Cabo Delgado Province.	Survey in communities for best drilling locations. Both geophysical profiles and soundings are conducted.	2 weeks
48	2007/13	Tecno-Poços	Borehole site investigations in 14 villages in the district of Erati, Nampula Province.	Survey in communities for best drilling locations. Both geophysical profiles and soundings are conducted.	3 weeks
47	2007/12	JICA	Socio-Economic Survey in Zambezia. Additional survey.	Additional baseline survey in six communities, covering household water supply, sanitation and hygiene	3 months
46	2007/11	Swissta	Survey for one production borehole	Hydrogeological survey to determine the potentiality of groundwater for large abstracts in the district of Marracuene, Maputo province.	2 weeks
45	2007/10	Tecno-Poços	Borehole site investigations in 7 villages in the district of nacala-a-velha, Nampula Province.	Survey in communities for best drilling locations. Both geophysical profiles and soundings are conducted.	2 weeks
44	2007/09	Modil	Survey for one production borehole	Hydrogeological survey to determine the potentiality of groundwater for large abstracts in the district of Montepuez, Cabo Delgado province.	2 weeks
43	2007/08	Projeto ASNANI	Supervision of 15 water points in Nampula	Addendum 1 to contract 2006/04. Supervision over the construction of 15 water points in the district of Mossuril, in Nampula Province	6 months
42	2007/07	JIANGSU - SUGEC	Geophysical survey training for two days	Training for the survey team of JIANGSU-SUGEC, during two days, in Nampula Province	1 week
41	2007/06	Project ASNANI / DPOPH Nampula	Supervision of 15 water points in Nampula	Addendum 1 to contract 2006/10. Supervision over the construction of 15 water points in the districts of Muecate and Rapale, in Nampula Province	3 months
40	2007/05	JICA	Socio-Economic Survey in Zambezia	Survey for Sustainable Water Supply, Sanitation and Hygiene Promotion in Zambezia Province	4 months
39	2007/04	FDSC (HIVOS)	Supervision over 3 waterholes	Supervision over the construction of 3 waterholes in the district of Mopingual	1 month
38	2007/03	Hidroafrica	Survey 46 communities	Geophysical studies for 46 communities in six districts in Niassa to determine the best suitable drilling location	3 months
37	2007/02	Wateraid	Implementing MIS database and mapping two districts	Implementing Database and GIS structure in Niassa. Technical water source and community mapping in two districts	3 months
36	2007/01	Swiss Development Cooperation (SDC)	Training course in supervision in Inhambane	Course in drilling supervision for participants from NGO, government and private sector. The course contained both a theoretical and a practical part, concentrating on mud drilling	1 month
35	2006/16	Ireland Aid	Evaluation	Evaluation of the support of IA to the water and sanitation sector in 2004-2006.	3 months
34	2006/15	Aka Khan	Baseline survey in one district in Cabo Delgado	Baseline survey for water sources with participative methods. GIS analyses and data base design	2 months
33	2006/14	Swiss Development Cooperation	Training course in supervision in Nampula	Course in drilling supervision for participants from NGO, government and private sector. The course contained both a theoretical and a practical part, concentrating on air rotary drilling	1 month
32	2006/13	DPOPH Zambezia / UNICEF	Baseline survey in 5 districts	Training, technical advice, logistics, data entry and GIS analyses for the collection of water source and population data in five districts	6 months
31	2006/12	Wateraid Moçambique	Survey for 50 boreholes in Maua and Niipepe, Niassa	Survey in communities for best drilling location. Both geophysical profiles and soundings are conducted.	2 months
30	2006/11	Hidroafrica	Survey for 34 boreholes	Survey in communities for best drilling location. Both geophysical profiles and soundings are conducted. The team remains in the area during drilling works to evaluate the results.	2 months
29	2006/10	Project ASNANI	Supervision of 50 water points in Mema district	Supervision of contractors for 50 water point construction. Also coordination with social consultant.	8 months
28	2006/09	Carbon services	Borehole survey	Executing a comprehensive survey for production boreholes in Maputo province. Upon the recommended site a successful borehole was drilled, for which WE Consult did the supervision	2 weeks
27	2006/08	Red Cross	Survey in 5 villages	Survey in five communities in Hindane, Maputo province. Including Aerial Photo Interpretation, mapping of salinity and geo physical works.	1 week

No.	Project	Client	Title	Description	Period / Duration
26	2006/07	DAR /OXFAM	Review of database	Collecting current status on the national database system, reviewing the social component. Visits included Inhambane, Maputo, Zambezia and Gaza province.	2 months
25	2006/06	Agua de Goba	Survey for one production borehole	Geophysical study to identify the best drilling location using geo physical equipment and indicating the situation with the current borehole and spring	2 weeks
24	2006/05	SEED Lda	Course concerning use of participative methods in baseline studies	As preparation for the field work, the Client received training in the use of PHAST in order to collect community information. Also basic GPS usage was included.	1 week
23	2006/04	Project ASNANI	Supervision of 50 water points in Nacala-a-velha district	Supervision of contractors for 50 water point construction. Also coordination with social consultant.	6 months
22	2006/03	Project ASNANI / DPOPH Nampula	Baseline survey in 4 districts: Meconta, Nacala Porto, Nacaroa, Ilha do Mozambique	Baseline survey for water sources with participative methods. GIS analyses and data base design	8 months
21	2006/02	DPOPH Zambezia / UNICEF	Baseline survey in 4 districts, Lugela, Nicoadala, Inhassunge, Chinde	Training, technical advice, logistics, data entry and GIS analyses for the collection of water source and population data in four districts	6 months
20	2006/01	Duys Lda.	Borehole survey and drilling supervision	Executing a comprehensive survey for production boreholes in Maputo province. Supervision of drilling company	1 week
19	2005/06	Salomon Lda	Course concerning use of participative methods in baseline studies	As preparation for the field work, the Client received training in the use of PHAST in order to collect community information. Also basic GPS usage was included.	1 week
18	2005/05	Wateraid Mozambique	Mapping of 2 districts in Niassa Lichinga and Mandimba	Training, technical advice, logistics, data entry and GIS analyses for the collection of water source and population data in two districts	4 months
17	2005/04	World Bank Water and Sanitation Program	Assessment of National Private Sector Drilling Capacity for Rural Water Supply in Mozambique	Study to identifying the sector of active borehole drilling companies and entrepreneurs in Mozambique which incorporates amongst others the constraints, legal framework, equipment and contract issues. Output is database and dissemination process	3 months
16	2005/03	Project ASNANI	Baseline survey in 4 districts Memba, Erati, Nacala-velha, Mossuril	Baseline survey for water sources with participative methods. GIS analyses and data base design	8 months
15	2005/02	Wateraid Mozambique	Mapping of 2 districts in Niassa Maua and Nipepe	Training, technical advice, logistics, data entry and GIS analyses for the collection of water source and population data in two districts	4 months
14	2005/01	Various clients	Technical assistance and small surveys	Technical assistance for borehole rehabilitation and various surveys around Maputo	2 weeks
13	2004/10	The Lutheran World Federation, Mozambique	Geophysical survey in Sofala	Hydrogeological data and results of resistivity profiles and soundings have been used to identify 9 suitable drilling sites in communities in Búzi and Chibabava district.	2 weeks
12	2004/09	Wateraid Mozambique	Supply ArcView	Supply and assist installation of three packages of 9.0 ArcView	1 week
11	2004/08	V3 Consultores	Geophysical survey ISRI	Surveying the future site of ISRI University for the possibilities of borehole drilling. Aerial photographs, maps and geophysical equipment were used	1 week
10	2004/07	Wateraid Mozambique	Mapping 2 districts Zambezia: Namucara, Namaroi	Training, technical advice, logistics, data entry and GIS analyses for the collection of water source and population data in two districts	3 months
9	2004/06	Salomon Lda	Geophysical survey for landfill	Surveying the future site of Nampula landfill for structural features, depth to bedrock and groundwater	1 week
8	2004/05	Various clients	Borehole surveys	For various private clients, executing a comprehensive survey for production boreholes in Maputo provinces	1 week
7	2004/04	V3 Consultores	Water quality analyses	Water sampling in Chokwe hospital. Biological and chemical analyses.	1 week
6	2004/03	The Lutheran World Federation, Mozambique	Technical advice for drilling six boreholes in Gaza province	Surveying six sites and providing technical assistance during the drilling of six boreholes	2 months
5	2004/02	ASNANI project / DPOPH Nampula	A baseline survey and the facilitation of project implementation in Mogovolas District in Nampula	A baseline survey of all safe water sources in one district with GIS analyses. Furthermore, mobilization of 20 communities and project facilitation	15 months
4	2004/01	Development cooperation Ireland	Feasibility study Marrupa town water supply	Executing a social economic, hydrological, hydrogeological and engineering study to evaluate the best viable option of creating a sustainable town water supply	2 months
3	2003/03	Wateraid Mozambique	GIS Mapping of Water Sources in Sanga District, Niassa Province	A baseline survey of all safe water sources one district has been undertaken. The report is as planning tool for DPOPH	3 months
2	2003/02	The Lutheran World Federation, Mozambique	Training course in drilling and hydrogeology	Training in hydrogeology and drilling of LWF staff. The training included drilling of 2 boreholes with LWF equipment.	1 month
1	2003/01	Salomon Lda	Rental of geophysical equipment	The geophysical equipment was used for siting in Cabo Delgado	1 week
